 **Sanovel**

Dear Colleagues,

It is a great pleasure for us to invite you all to the "15th Interventional Cardiology Meeting" to take place in Çeşme, a beautiful town of Izmir on the Aegean Coast of Türkiye, on dates 12 - 15 June 2008. The meeting is organized the Interventional Cardiology Working Group of the Turkish Society of Cardiology.

It is exciting to see now that the Turkish Interventional Cardiology Meetings have become traditional and that the colleagues' interest for these meetings increases with each year. The scientific programme of 2008 meeting consists of presentation of cases as live transmission at catheter laboratories, conferences and symposia by very well known and highly experienced scientists from many countries.

The programme also includes courses planned for the further theoretical and practical training of assistant doctors. The Invasive Cardiology Working Group kindly requests that you encourage and urge your assistants to participate in the meeting and so to attend the training courses.

We extend our sincere thanks to the President and Executive Committee of the Turkish Society of Cardiology, to all colleagues, to institutions and pharmaceutical firms supporting us for the realization of this meeting.

We look forward to welcoming you all in Cesme soon!

With best regards,

Prof. Dr. Ramazan ÖZDEMİR

Head, Invasive Cardiology Working Group, Turkish Society of Cardiology
